Related subject: Weston super Mare - Winterstoke ward

Although I still remain unconvinced that the forecast number of electors will occur in Winterstoke by the required date I accept the commissions position that it has to move forward regardless.

I therefore agree with the commissions recommendation that homes at Hutton Moor Lane and Puttingthorpe Drive should be moved out of the Winterstoke ward.

They are distinct communities. I would however recommend that the nearby commercial estate - at Flowerdown and Aisecome Way is also transferred out of Winterstoke because it links and impacts Hutton Moor Lane and it makes sense these environments are under one ward together.

To the question of whether electors from these areas should be transferred to South Ward or to South Worle ward, I'd argue the more appropriate would be South Worle. This is because, particularly Puttingthorpe Drive, is already close to homes in South Worle which are a short distance over the bridge and therefore it will feel more connected to that ward.

The homes are simply too far from other homes in South Ward to justify transfering them to this ward.
