## Comment text:

**Related subject:** Portishead

I agree with most of the proposals for Portishead except that the additional parish councillor should represent North ward and not South. These two wards are very similar in size, with North at the moment having very slightly more electors and South projected to have very slightly more in 2031, but North ward includes a number of important public amenities - The Lake Grounds, Kilkenny Fields, Somerset Hall (all of which are soon to be coming under the control of Portishead Town Council) and the High Street.
It would therefore make more sense to have an extra councillor representing North ward to help resolve issues relating to them.
