Comment text:

Related subject: Nailsea

The residents of the Elms have already made it clear they do not want to be associated with Nausea Town Council. They negatively campaigned against such residents in 2025 to try and make us part of Nailsea, using false data and information, even telling us that THEY funded education, NHS services and libraries. I for one do not want to be associated with a council that spreads lies to achieve their ends, and this boundary change would force that on me.
