Comment text:

Whilst considering the boundary lines for Waltham abbey, I share a concern with other councillor representatives of Waltham Abbey with regards to the future plans of current High Beech Ward. High Beech always has been and should remain part of Waltham Abbey. High Beech should not be linked with such an urban area like Loughton. High Beech should be considered it own community being surrounded by Epping Forest and the Green Belt and should be given special consideration for exception of the 3 councillor per ward rule to allow the community in High Beech to be represented entirely by their councillor as it currently is. Alternatively, another consideration could alternatively be achieved by creating a sub ward within the main ward. Waltham Abbey could be made up of 3 three councillor wards with the third ward being split into 2 sub wards one being High Beach.
