Related subject: Wraxall

I do not agree with the changes. I am a Wraxall resident and moved here to be part of that community. These changes will impact our families in this area. It is important for us to remain as part of Wraxall & Failand. The environment is very important to us & this area has a substantial amount of diverse wildlife that is increasing with the help of the residents and Belmont. Without protection, this important ecosystem will be at risk.
