Related subject: Wraxall and failand

Wraxall and FAILAND represents a unique rural community and should remain distinct from the surrounding areas.
I live on the border of Wraxall (by nailsea) and it’s is of extreme importance to me that my councillors represent me and my villages views. To be consumed into a town would be against my wishes as a resident and make me consider whether I would be represented fairly by the councillors, who represent a different range of demographics and priorities to that of Wraxall and FAILAND.
