Related subject: backwell

Backwell is a rapidly growing village. The population of the village is forecast to massively increase over the period of this ward plan. I believe it is already under represented and the plan to amalgamate the ward with Wrington will exacerbate this issue. Once the additional population provided for in the approved plans is accounted for Backwell could be as much as twice the correct representative ratio which seems highly undemocratic. Additionally the characters of Backwell and Wrington are extremely different and, as a resident there is nothing to connect the two- in fact as a Backwell resident I have never been to wrington. There is far more interaction between Backwell and other villages, not least as Wrington is a different school catchment area.
I strongly believe the plans are mistake and will result in poor representation and no sense of community.
