Related subject: Wraxall & Failand

I am very disappointed to be doing this survey again having completed the last survey only a short while ago. At the last survey I stated that I feel the ward boundary should remain as it is with The Elms area staying in Wraxall & Failand within the Long Ashton Ward and I haven't changed my mind!
I like living on the edge of a rural area, it is one of the reasons we moved here and not further into Nailsea which is quickly becoming an urban sprawl full of unattractive new housing and less and less green spaces. If Nailsea Town Council get their hands on the land within the proposed new boundary, I feel we will soon become surrounded by yet more new houses and will lose the green belt area we find so attractive. We will also lose the wildlife that currently resides here!
