Organisation Name:

Comment text:

What is currently designated as Booker Cressex and Castlefield makes no logical sense. it creates a boundary through the middle of a clearly identified community, that of Booker and Cressex, and ties the part that has been cut off with part of another community to which it has nothing in common. The areas of High Wycombe, Booker, Cressex, Sands etc are already very badly served by the 'new Council' since there is no Town Council or Parish Councils. These new boundaries make that situation infinitely worse. Its divides one community and tries to enforce a connection where none exists. Revised boundaries are on the attached proposal. If fine tuning is needed to even out the electorate parts of the area marked with a blue outline should be used as this has connections to Abbey, Castlefield & Western High Wycombe and Booker & Cressex.
