Comment text:

I object to the draft proposal to move The Elms area of Wraxall & Failand into the Nailsea ward, on the following lines:

1. This would be detrimental to the effective representation per councillor and not improve electoral equality, as stated in Appendix A of the report. The community identity of the Elms residents has always resonated with the Wraxall and Failand area.

2. The proposal would also reduce governance by providing the Elms with only one ward councillor rather than the two it now has.

3, The existing governance structure is well established and effective
