Comment text:

This boundary change proposed seems illogical and goes against everything that has been discussed over recent months during the Governance Review. The Elms made itself clear that it wanted to remain as part of Wraxall and the Long Ashton Ward. The volume of support from the Elms couldn’t have been louder. Yet the Commission has chosen to not take that into consideration but instead listen to the voice of one lone Councillor in Nailsea Town Council as detailed in the Commissions report. I ask as a resident of Wraxall that the Commission looks at this again and retracts its proposal to ensure the Elms retains its rural heritage and stays part of Wraxall and Long Ashton Ward. Thank you.
