I have never understood why the views of some of the residents of the Old Town Beaconsfield are served by Councillors from Gerrards Cross and it would seem more sensible if this anomaly was finally corrected. I live in the Old Town of Beaconsfield and my council representatives are based in Gerrards Cross and we seem to have a hard job letting them know what issues are happening in Beaconsfield because really their interest lie with Gerrards Cross. This daft split of the town's voters splits the town of Beaconsfield when really it should follow the Parish boundaries that cover the whole of the Beaconsfield New and Old Towns Now that the Boundaries Commission is looking at the Ward boundaries, I believe It is therefore time to include ALL the residents of old and new town Beaconsfield into one council ward so they can all be properly represented by a Councillor that they wish to vote for and not someone who lives in another town, When I make my chose on the candidate I wish to be my Councillor, I must chose for a person I don't know who has never come to Beaconsfield to canvas my vote because of where I live. I only received one manifesto from all the candidates standing for the Gerrards Cross Ward elections last year, yet I received manifestos from all the candidates standing in the Beaconsfield ward which included candidates I was interested in supporting from the Beaconsfield Ward. However by virtue of my postcode, I was denied my right to vote for them. I have often wondered if this breaches my rights under Protocol 1, Article 3 of the Human Rights Act Please can you finally end this daft spit of the voters in Beaconsfield so I can be served by a Beaconsfield Councillor and one that I want to vote for
