It is incredibly difficult to find information on what the changes are, why they are being proposed, why are they required. I have spent 10 minutes on your web site, following various links but none of them lead to anything real and tangible. Unless this consultation is a mere sham to satisfy some legal requirement, why is there not a clear and easy way to learn about these proposed changes? I believe there should be a quick link to a summary presentation/document, maybe 5-10 pages of easily digested (but not dumbed down) rational, information etc. Unless i can understand what is proposed, how can i make meaningful comments?
