

Fareham Borough Council

Personal Details:

Organisation Name:

Comment text:

Why have we still got this crazy boundary zig-zagging through the middle of Whiteley? Isn't it about time the adults got together and created a more meaningful boundary that is notated by main roads or other such features? If that means Fareham or Winchester gaining or losing a little bit then surely that's better than having the current invisible boundary that causes friction between councillors blaming each other for what they are doing or not doing?
