Why is my address  in Park Gate?? Since my property (built in 1960-61) has always been in SARISBURY rather than Park Gate, why do I have to travel further to vote than at any time in the past sixty years? Presumably you are obliged to "even up" roughly the total number of voters in each ward but if not, then logically my property should be in Sarisbury. And what an odd, illogical boundary to Park Gate which appears to have devoured a substantial part of Locks Heath and a sizeable bit of Sarisbury. And: how can Sarisbury possibly extend into Burridge and Whiteley?
