Comment text:

I am very concerned that this proposal splits the village of Catisfield in two. There is a long history and current relationship between all residents of the village of Catisfield and the central hub is the Catisfield Memorial Hall. Events at the hall are largely arranged to involve the people of the village and in fact was donated to the 'people of Catisfield ' by Samuel Mortimer as a Memorial to the locals lost in the war, including his son. There is a Catisfield Village Association with currently 360 members, there are newsletters distributed to the community and charity work held locally...£8k towards the Romans' Hospice has been made by one local, who has made and sold face masks, cakes and poppies and sold to the Catisfield community. We are a village, a community and have very much a village spirit....please do not destroy us
