### Comment text:

I think Valley ward is too large. It incorporates some very deprived and neglected areas which just aren't being managed effectively. I live in valley ward and have failed to get support with issues at playground and issues with pavements. I feel like the higher areas with higher level of deprecation should be given more resource. You will see from feedback that there is a huge opinion across the borough that the coastal and more affluent areas are prioritised whilst others are left with no investment at all. I would suggest the older 'council' estates of shiremoor and Backworth becomes it's own ward with a focus on improvements to this incredibly neglected and run down area.
