Comment text:

Having three councillors from different parties offers diverse opinion and affords a choice for the residents. A reduction in councillors will bring an increase in work load for them and likely only encourage retired folk to volunteer- not that this is a bad thing just that younger folk are more in touch with upcoming trends and possibly more in touch with electorate. These changes also go against what the public asked for when it went to consultation from TWBC in 2021. I'm uncertain why we consult if we then ignore the electorate.
