### Comment text:

I am very happy to have the number of Councillors in Tunbridge Wells Borough reduced to 39. As a resident since 2006 I don't believe it will reduce the quality of representation ,given that the majority party has served us so poorly and imposed costly schemes without direct consultation. I also wanted all wards to be up for election at the same time ( to reduce costs ) ; a move rejected by current Councillors. I don't have any issues with this inner Borough boundary but I do object to remote parts of the Borough having an equal voice over matters in my central ward.I see virtually nothing in common, for example, with Hawkhurst or Cranbrook.
