Comment text:

I have lived in Weddington for 30 years. Looking at these numbers it already has the biggest electorate... but the projection (7000+ up to nearly 13000) is the actual evidence of how the north east side of Nuneaton is ring RUINED. Already there are thousands of more houses but NO extra facilities. There is only so much that an area can take and Weddington/St Nicolas has taken to much already and has no facilities. On a daily basis I have conversations with families who are unable to get their children into a local school or nursery. If it wasn't so serious, it would be a joke. The increase in the number of houses/residents is already equivalent to the size of a small town. And are we still only being represented by 2 councillors. DISGUSTING.
