

## Epping Forest District Council

### Personal Details:

**Name:**

**E-mail:**

**Postcode:**

**Organisation Name:**

### Comment text:

Ivy Chimneys has several leaks over the last few weeks and it needs a complete pipe to be renewed but we have been told that Epping Forest won't commission it, why? So far this road has been closed approximately 5 times. Also every pavement in the Epping area should be renewed also the roads have so many potholes. Epping Forest does not look after their area at all it's the worst council ever. Also the extra parking facility put on to assist parking on Ivy Chimneys is a serious hazard to other cars and also to children from Ivy Chimneys school and as you are no doubt aware cars park everywhere to drop off and collect their children and cars fly over the hill at the junction between Ivy Chimneys and Centre Drive and have been lucky so far that there hasn't been any fatalities. What is needed is speed bumps to deter speeding along here to slow traffic down. Also bonfires being lit in the middle of the day even throughout the heatwave it is like living in a war zone there is no consideration to residents, even after contacting your offices nothing done. Awful.
