Can someone please tell me how you think this proposal will work? How can you split a road in 2? Especially one side of the road to the other? This will impact on house sales, the possibility of being "forgotten" if you fall on one side of a boundary. Who thought this was a good idea? This won't work. I live in Walkern Road and it has always been classed as Old Town. How do you stretch a boundary so far? Who benefits from this? It's absolutely ridiculous! Can someone explain please? Just absurd!
