### Comment text:

Hi, The northern boundary of the Old Town boundary simply doesn't make sense. Julian's Road should be included inside the Old Town boundaries. There are a number of houses (including the Old Station Masters house, and ex-public houses, on the southern side of the road that are part of the Old Town conservation report and part of the Old Town conservation area. Having the split across gardens and around the 19th Century built warehouses doesn't make any sense and cuts part of the conservation area away from the Old Town ward. It would much more sensible to have the boundary going along the centre of Julian's Road from Lytton Way to the point shown in the middle of the bridge. In the attached image I have added the boundary line in green down the centre of Julians Road. I would like to see this change implemented to keep the character with the boundaries. Regards [REDACTED]
