Organisation Name:

### Comment text:

I live in Hillside ward and feel very little connection with Wokingham. All my travel for leisure or shopping is done in Reading because public transport links to there are convenient. I can't remember the last time I visited Wokingham. I feel the majority of borough facilities are concentrated on the eastern part of Wokingham constituency. I think all wards should have at least two councillors so there is the chance of different political representation in a ward.
