Comment text:

Completely wrong. It is not fair on residents of part of north Woodley to be joined with Sonning. Both areas have completely different needs and living. It is not in the interest of either community. The Boundaries that are provided by WTC and for the parish council of Sonning are satisfactory. It confuses residents then to have WBC with its boundaries. Most residents just do not understand and those who do just can not see reasoning. Typical of local government making unsatisfactory situations. I understand the idea of numbers but it does not work.
