Organisation Name:

### Comment text:

Wokingham Council have repeatedly encouraged participation in this consultation. There is very little information on lgbce.org.uk (despite the note about plentiful linked information) or Wokingham.gov.uk about why changes are needed. You mention the council have also not proposed any new boundaries. This makes commenting on changes more difficult. And makes one wonder why the purpose is left so unclear. Assuming at least one driving factor is to have a balanced number of residents for each ward/councillor, then it would help to know which wards have more, or less than average. In the absence of any further information, Sonning ward's boundaries seem very sensible as they are. If they needed to accommodate more residents then logically extending the boundary to include more of Butts Hill Road and/or Duffield Road, including Copse Mead and Highcliffe Close?
