### Comment text:

I would recommend that the District remains with 11 wards and 33 councillors. This is not a time to increase costs and the number of politicians. The line of the A414 and its continuation to the North - A1184 should constitute a natural boundary. This dual carriage way road does separate neighbourhoods and districts. In the South, Harlow Common is an anomaly, with two unrelated areas, divided by the A414. Old Harlow is too big and the Eastern side of the A414 should comprise 3 wards.
