### Comment text:

I have recently seen the proposed ward boundary changes on the Harlow Council website. As a long term resident of Potter Street neighbourhood, we share much closer links with our near neighbours in Church Langley than with the Latton Bush areas on the other side of the A414 dual carriageway. We have a number of joint community fundraising events, share the Common, both use the same medical centre, shopping facilities and Post Office. It makes complete sense to be part of the same electoral ward.
