**Postcode:**

**Organisation Name:**

A large black rectangular box redacting the personal details of the user.

### Comment text:

I object to this proposal. Church Langley has one way in and one way out, yet it's being split into two, meaning that neighbours over the street will be in a different ward. This is a community that should be represented by one set of councillors, representing the whole community. There is a maintenance fund for CL set up by the developers, how is that money going to be spilt between the two wards? This literally makes zero sense.
