Organisation Name:

Comment text:

Stevenage boundaries as a whole really should be expanded to reflect the growing population relying upon (and thus should vote on the provider of) services within Stevenage. Namely the 2/3 of Great Ashby lying outside and other proposed developments including to the East of the boundary. I appreciate this may not be relevant to the internal ward review but unless the constituency becomes representative of the Stevenage population, other local authorities will continue to have unjust influence and render any ward review in vain in trying to improve fair representation.
