

Castle Point Borough Council

Personal Details:

Name: GODFREY IAN ISAACS
E-mail: cllrgisaacs@castlepoint.gov.uk
Postcode: XXXXXXXXXX
Organisation Name: Castle Point Borough Council

Comment text:

This seem to me a numbers game rather than caring for the community and residents we represent. I have been a resident of Thundersley, Hadleiegh and Benfleet for 64 years and was elected as a borough councillor in May 1999. The proposal is a retrograde step from the Boundary change implemented in 2003. Councillors have a reduced workload due to the removal of decision making however this allows us more time to work with our community and provide more support as the link between my residents and council officials. The reduction of 2 councillors is based on numbers and not to provide a service that the residents of Castle Point require. Having reviewed the proposal and the proposed population figures provided at The Boundary Review Presentation earlier this year I am totally against the proposal suggestion and would suggest the status Quo approached be adopted and that the Castle Point Borough Council remains as it is today. 12 December 2022.
