Comment text:

We feel strongly about the proposals for the boundary changes having just got our community back after "new deal" you now want to break us back up , our area of EDGE HILL will once again suffer we have a diverse community from Grove Street, Upper Parliament Street , Smithdown road , Wavertree road ,Edge Lane the people who will have the final say in our community don't live here please leave us alone, the developers have destroyed our community it was raped , built new houses with no bank or shops all kinds of promises which never happened, gave the smaller local shops to mainly fast food suppliers, while our community is finally reunited after new deal you want to break us back up , we have hard working councilors who listen to our wants & needs who find solutions to our problems how can your boundary changes benefit us?, when they propose to make thing worst, most of this email is quotes from residents in our area who strongly oppose the changes . we are asking as a community please reconsider these propose changes and leave us as we are "if its not broken don't try to fix it" Pat Moffitt On Behalf Of Crosfield Tenants & Residents Community Association
