Postcode:

Organisation Name: Phoenix Art Space

Comment text:

We are extremely concerned by the impact that the proposed boundary changes to Hanover and Elm Grove Ward will have on our community. Our organisation, Phoenix Art Space, is located at 10 -14 Waterloo Place. We have worked very closely with our local community, investing time, fundraising and resources into an area that is not served by other arts organisations. We are very committed to the work that we do and have consistent, much appreciated support from our ward councillors. The proposed boundary change would have significant impact on our outreach work, and the communities that we serve. We were a founding partner for the Hanover and Elm Grove Community Forum and remain a very active partner. We are committed to reducing Crime and anti social behaviour in the area, contributing to the safer neighbourhood initiatives. Changes to the ward boundaries would significantly reduce our ability to work in the ward, and our ability to bring much needed investment and cultural activity.
