Organisation Name:

Comment text:

In Buckingham we are somewhat out on a limb compared to the rest of the County. We used to work in Milton Keynes and prefer to go in that direction for shopping and any other matters such as medical appointments. It's far easier to get there by car or bus with 1/2 an hour, not have to travel to High Wycombe or Stoke Mandeville. We would like to be part of the greater Milton Keynes area and believe it makes great economic and practical sense for this to happen. Resources are somuch easier to share when they are physically closer to each other, not scattered down a very long county. We would welcome being part of MK. We also believe that planning in MK is far more sensible as they require facilities such as schools and medical centres to be built at the same time as new estates.
