Organisation Name:

Comment text:

The councillors are paid a substantial salary and with all the budget cuts that the Council are making, to services and staffing, surely the job can be done by 2/3 councillors per area - AV, WYC & CSB? There are already too many 'levels' of authority to get work done and too many interferences for external committees and institutions. Plough the money into the services and into recruitment - more people on ground level to actually do the job. Hierarchically is crippling the productivity!
