

Buckinghamshire County Council

Personal Details:

<div></div>	<div></div>
<div></div>	<div></div>
<div></div>	<div></div>

Organisation Name:

Comment text:

The number of councillors according to the LGiU in the U.K. is 20,000. The population of the U.K. is 68million so for a county the size of Bucks with a population of 543,000 you would need 159 Councillors to give you average representation in line with that of the U.K. Sources
