Organisation Name:

Comment text:

I believe that the residents of Sands by High Wycombe need to have more of a say in there community and have a parish council to achieve this. For many years the planning and Environment Officers along with Building control have failed to deal with the flood report that the following councils paid for, Wycombe District Council, Bucks Council and Chilterns in 2011. On top of this illegal planning applications are continually being subjected to the community by the same individuals and have no reason in law to do so.
