### Comment text:

It is difficult to provide comments with such little information provided about why redrawing of boundaries is required. Therefore, I would want to see further information about the reasons why this required. Additionally, should you not also provide an option for submissions by businesses, as there is no drop down option for this. I live in Sandhurst Street in St. Michael's ward and very much welcome the hard work and results produced by Councillors serving this ward. It is for that reason I would not want Sandhurst Street becoming part of any other ward.
