Comment text:

For to long we have had to many councillors doing nothing and taking the money. I was upset when Speke and Garston were joined as one area they are two distinct areas and do not belong together. At one time you had 3 councillors for Speke and Garston working in a Credit union in Speke and many people complained you never see them in Garston. The system is broken and voters in certain wards taken for granted meaning some candidates are not up to the job nepotism is rife. Cut councillors in Speke Garston to two and if possible oversee their performance - surgeries - accessibility- clients seen- cases solved- more scrutiny of expenses - allowances and attendance. There are a few good hard working councillors and it's not fair that others sit back and neglect voters.
