Comment text:

More recently we have asked our local Councillor for a Christmas tree as other wards have recieved one which is amazing for the community. After many residents requests we were told by councillors other areas funded themselves which was not the case. This is a small example why I agree with the new proposed ward 17 for croxteth park estate alone and would be willing to participate my views in any future discussions regarding the new ward if required. Kind regards [REDACTED]
