### Comment text:

Churchill, Winyates and Matchborough could all be one ward, They all have basically the same needs. i.e., same roads, same type of houses, same landscaping needs etc. The properties are mostly the same built and their needs are the same. One central point is needed for contact which would be matchborough. They are all served by the same transport and on the same bus route so a central small office in matchborough would cater for all residents to get advice. Money saved on expenses from two redundant councillors could pay for the office.
