Comment text:

Heysham is now left in a vacuum, surrounded by areas who have their own representation as Parish Councils or town councils. We were refused permission to have our own Parish Council in 2020. We have no say and no money to undertake even necessary undertakings such as decent toilets in the village. Let us have a say like Overton, Middleton and Morecambe. Not good enough. The Council should be represented by one person off each of the parish Councils, which would be more representative.
