Comment text:

I disagree with the proposed boundary changes. Leverington has a really well run parish council with councillors who live or have lived in the village and have excellent knowledge of the area and what is required to improve facilities for Leverington. I have always lived in Leverington and feel the Parish Council works hard to get things done to benefit the local residents and if the boundaries change we would not get the same benefits and would lose the community feeling as we would not have people we could talk too who understand where we are and what we prefer.
