Comment text:

The present Ward of Parson Drove and Wisbech St. Mary is served by two district councillors with a current electorate of 4188. This ward includes the village of Murrow which shares a common boundary between Parson Drove and Wisbech St. Mary. Under the current arrangements the ward ensures a consistent approach to both parts of Murrow. Under the proposal part of Murrow would be in one ward and part in another! I note that whilst the current electorate is 4188 and the forecast for Parson Drove and Roman Bank is 3912 a very small difference so why change the boundary unless it has a political motive. All of these areas are essentially rural in nature and I can see no benefit in making changes for the sake of change. It is my view that there is no need to make any alteration to the boundaries of the current wards of Parson Drove and Wisbech St. Mary.
