Comment text:

Logically it cannot be right to include the Parish of Chalk with Westcourt. The residents of the two districts are totally diverse. Chalk is a privately owned residential village with a mainly older population whilst Westcourt consists of mainly Social housing. Chalk also has fewer ethnic minorities populating it. Therefore it is not possible for both areas to be served well at the same time. As a small village we would be better suited to be included either with Cobham or Shorne as our needs would be similar.
