I am against the extension of Riverside Denton just to include new builds. To me this just looks like a plan to show that investment has been put into Riverside area instead of actually doing anything. There is a clear cut off point between Denton and Chalk which is Dering Way. Reason for moving to this location was due to it being part of Chalk as feedback from previous person of Chalk area was positive. If this does go ahead there better be better investment and clean up of the Riverside area. That includes street cleaning and ensure no fly tipping and ensure estates are managed better, otherwise there will be mass complaints if this change is just so the council doesn't have to invest money where they should do.
