The LGBCE proposal to join Dothill and Shawbirch and make it into a two member ward is a backward step that does not benefit the residents of Dothill where i reside nor indeed the residents of Shawbirch. I do not wish to see the dilution of the identity of Dothill. There is no link between Dothill and Shawbirch....It sounds like something only a non-resident would come up with and it is in our (residents) best interests for the areas to remain single wards. Thank you for your consideration
