### Comment text:

I believe that Shawbirch should remain an independent ward and not merge with Dothill. We moved here two years ago and one of the things that really appealed to us is the strong identity Shawbirch has. To lose such identity, as proposed by the LGBCE, and become a two member ward does not feel right. As it stands we get an excellent service where the community is well served by our councillor who knows what matters to residents. Please save our identity and keep Shawbirch as a single member ward as proposed by Telford and Wrekin council committee.
