While it is disappointing that Ashtead has to lose a councillor, the justification given is reasonable. I support the new boundaries, and would not agree with the proposal to remove the M25 as the boundary between Ashtead and Leatherhead for the reasons given in the report. The M25 is the clear and obvious boundary between the two areas. I have a mild preference for the retention of the names Ashtead Park and Ashtead Common in place of South and North respectively. Parts of the proposed South ward are not especially south in the village, and vice versa. Using Park and Common would be better differentiators as they reference the largest feature in each ward, and in that sense also correspond to each other.
