Comment text:

These boundaries seem very arbitrary. For example Leith hill ward covers a huge area. The needs of people in one party if this proposed ward would be very different to another. As it stands the local councillor for our area doesn't live here and consequently doesn't know our Hamlet at all. This will not improve under the new plans and will be a disservice to the populus. Mole valley and it's current wards should be maintained. There is no benefit to a change.
